

U.S. DEPARTMENT OF ENERGY · ALTERNATIVE FUELS AND FEEDSTOCKS OFFICE

ASPECT

Teaming Partner List

Accelerating Scale-up and Pre-piloting of Emerging Chemical Technologies. The NOFO is noticed, not issued. The teaming list is open now.

STAGE	APPLICATION DEADLINE	COST TO ACT
Notice of Intent No applications accepted yet	TBD Not published	One form No deadline, no signature

Positioning, not a funding application. It puts the company in front of the applicants who will form teams when the NOFO lands.

ISSUING OFFICE

DOE Office of Critical Minerals and Energy Innovation, for the Alternative Fuels and Feedstocks Office.

ANNOUNCEMENT NUMBERS

NOI is DE-FOA-0003646. The list is TPL-0000073, whose title cites DE-FOA-0003647 while its body cites DE-FOA-0003646. Select it by title.

WHAT THE NOFO WILL SEEK

Development and scale-up of technologies making chemicals from alternative and waste feedstocks, including foundational molecules.

WHY IT FITS

Post-consumer PET is a waste feedstock. Terephthalic acid is a foundational molecule, and it is what the company measures today.

WHAT IS NOT DECIDED

Award size, cost share, eligibility, topic areas. DOE states a NOFO may differ from the notice or never issue.

SCOPE SEPARATION

No overlap with NSF 328095 or the Genesis Mission pitch. A teaming list commits no scope.

PORTAL AND CONTACTS

DOE Funding Opportunity Exchange, eere-exchange.energy.gov, Teaming Partners pane. Program: ASPECT@doe.gov, Josh Messner. Support: eere-exchangesupport@hq.doe.gov

Verified Tuesday, August 25, 2026 by direct fetch of the DOE Funding Opportunity Exchange listing. The NOI document is dated July 14, 2026 and the application deadline reads TBD.
