On 2026-08-25 the page displayed them behind email obfuscation and they could not be re-read, so the earlier date stands as the verification date.

DELIBERATELY NOT ON THIS LIST: NSF

NSF proposal 328095 is pending. Unsolicited outreach to program staff while a proposal is under review can muddy the record and cannot help it. NSF's own front door is the Project Pitch, which is a submission rather than an introduction. Revisit after 328095 has an outcome.
